

## Easy IEP and Targeted Case Management (Medicaid Billing) as a Related Service

You may have noticed that when you first begin to enter information for a student, there already is a Related Service entered (Targeted Case Management – Medicaid Billing). Many of you have called to inquire what this service is and how it automatically appeared.

Targeted Case Management is what was formerly known as Case Coordinator for Medicaid Fee for Service. **No local districts are participating in this at this time.**

In the past, the special education teacher would have been the Targeted Case Manager.

This Related Service will NOT appear on your printed IEP. If or when your district participates in Targeted Case Management, the Targeted Case Manager will use this Related Service to bill Medicaid for that service.

If you delete this Related Service, don't worry, it can be added back in later. This will NOT affect any services on the IEP, it is for Medicaid billing ONLY.

Targeted Case Management will be coming in the near future if districts choose to seek reimbursement. Until then you don't need to do anything with that service.
