About this initiative: MiFamily Engagement Centers serve as a nexus for resource development and capacity-building for those supporting educators, providing educational programs, linking families to community resources, and reaching out to families to better equip them in becoming partners in their child's education. The centers serve as a system of support (not a physical location) and are administered by intermediate school districts with funding from MiLEAP.

Questions? Contact Carolyn Beltz at beltzc@charemisd.org or (231) 308-0248.

The webinar will be recorded and available to view for those unable to attend.
